

Project Plan and Work Schedule

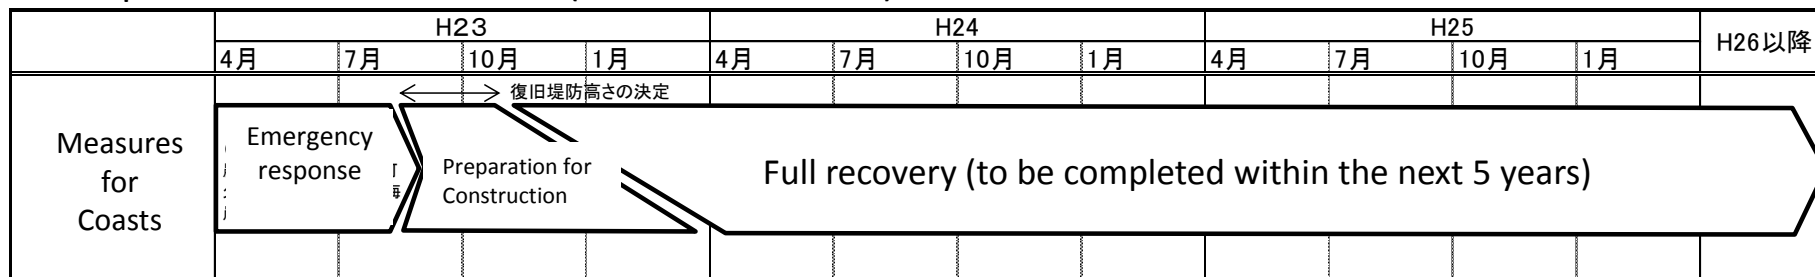

Reconstruction Headquarters coordinate, revise and disclose information on relevant policies and measure under the direct control of the Central Government, on regular basis.

- “Project Plan and Work Schedule” for public infrastructure and school facilities were formulated and made public (August 26 and September 30 accordingly)
- “Project Plan and Work Schedule” for infrastructure and other relevant measures on national and regional level was updated on Nov. 29th, to show the progress and prospect of reconstruction in concrete terms, after the approval of FY2011 third supplementary budget by the Diet.
- Complete “Project Plan and Work Schedule” are available on the website of the Reconstruction Headquarters: <http://www.reconstruction.go.jp/topics/2011/11/000318.html> (only in Japanese)

○Project Plan: Sets out basic principles and targets for recovery and reconstruction by projects.

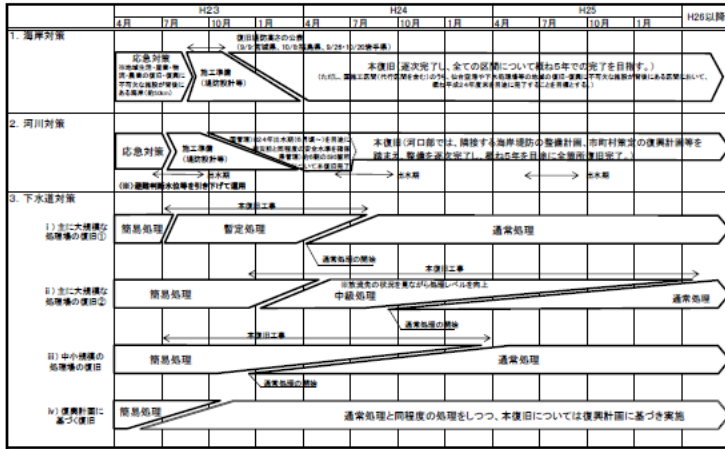

○Work Schedule: Presents targets of recovery and reconstruction for the next three years which necessitates prompt budgetary measures.

Example of the Work Schedule (Coast: sea barrier)

Project Plan and Work Schedule

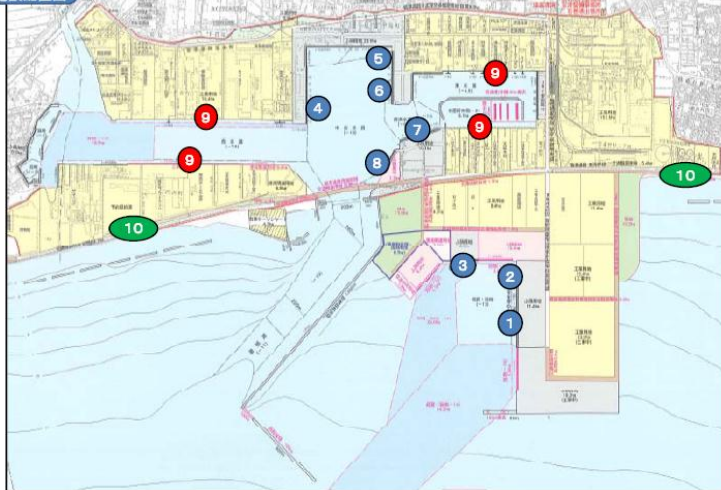

工程表(全体版)
